Gary:

I spoke with Paul (ERDC) earlier and he informed me that EPA may ask ERDC for additional technical support. I was hoping to get a copy of the sample location map and analytical results to determine impacts or risks to the Corps proposed dredging operations. I'd appreciate any info you can share in this regard.

Thanks
TONY

Carlos:

I just received a copy of the press release for the San Jacinto SF discharge.

Some of the Corps and EPA staff were meeting to discuss dredging the Houston Ship Channel and sampling requirements. Is Gary Miller still the RPM? I'd like to get a little more details and information?

Thanks

TONY
